

The AE2020 ONLINE Programme Grid has now been published

The Programme Grid (links to https://www.aquaeas.eu/images/stories/Meetings/AE2020/AE2020_ProgrammeGrid.pdf) of our AE2020 ONLINE event from April 12-15 is now online. The Grid provides an overview of the sessions over the 3 conference days and the RAS programme (link to https://aquaeas.org/pdf/AE2020_RAS@EAS_Programme.pdf) on the 12th. A more detailed programme with individual presentation titles will be published just before the event.

AE2020 ONLINE will have parallel sessions covering most aspects of European aquaculture, and therefore a great update on research. The parallel sessions will be made up of pre-recorded video presentations of the oral presentations and with time allocated to review Eposters and for Q&A.

The event will also feature an e-Market, where vendors and media partners will have a dedicated place online to present their products, link to their website and have a chat-box to interact with attendees and set up meetings. For more information on this, see our E-market presentation flyer (link to https://aquaeas.org/pdf/AE2020_E-MarketFlyer.pdf)

Close to 1000 attendees are expected to attend the event and you can register online (link to <https://www.aquaeas.org/Registration/Submit/AE2020>) now and have the Early Bird registration rate (€125 for EAS members, €225 for non-members and just €30 for students) if you register before March 15.

To benefit from the reduced registration rate for EAS members, you can join EAS directly here (link to <https://www.aquaeas.eu/cb-registration>) or with your AE2020 ONLINE registration.

All presentations from AE2020 ONLINE and interaction with the vendors will be available to attendees for 30 days after the event, so you won't miss anything!

The screenshot shows the 'AQUACULTURE EUROPE 2020' programme grid for April 12-15, 2021. It is divided into four daily sections: Monday, Tuesday, Wednesday, and Thursday. Each section lists the time slots (09:00-10:00, 10:30-11:00, 11:30-12:00, 12:30-14:00, 14:30-15:00, 15:30-16:00, 16:30-17:00) and the corresponding sessions in different rooms (ROOM 1, ROOM 2, ROOM 3, ROOM 4). Topics include RAS@EAS Event, Opening session, Circular Economy, Disease prevention, IMTA & Aquaponics, Climate Change, Latest Research and Innovation in the UK (ARIG), Offshore aquaculture, EAS Student Group Workshop, Precision aquaculture, Fish Welfare, Micro- and Macro-Algae, Selective Breeding, Product quality, Shellfish production, restoration and conservation, and Selective Breeding (cont.).
