DON'T MISS THE TRIENNIAL!

AQUACULTURE 2013

Every three years, the Triennial is held somewhere in the United States. In 2013, the Triennial enters new territory in the exciting city of Nashville, Tennessee - the Music City!

THE TRIENNIAL IS THE LARGEST AQUACULTURE MEETING IN THE WORLD!

The Triennial is the largest aquaculture conference and tradeshow held in the world with nearly 4000 attendees from over 90 countries and even more countries are expected to have attendees at AQUACULTURE 2013. The Triennial combines the annual meetings of the Fish Culture Section of the American Fisheries Society, the World Aquaculture Society and the National Shellfisheries Association. In addition to the annual meetings of the main sponsors, look what else is happening at AQUACULTURE 2013!

- AQUACULTURE AMERICA - Annual Meeting of the U.S. Chapter of World Aquaculture Society, the National Aquaculture Association, and the U.S. Aquaculture Suppliers Association.
- Annual Meeting of the American Tilapia Association
- Annual Meeting of the Striped Bass Growers Association
- Annual Meeting of the U.S. Trout Farmers Association
- Special sessions organized by Aquacultural Engineering Society and International Association of Aquaculture Economics and Management
- Many other meetings of working groups, government agencies and related aquaculture activities
- Program with technical sessions and producers seminars covering virtually all species grown by aquaculture
- AND - look at all of the Associate Sponsors on the cover who are participating in the program development!

The last Triennial was held in 2010 in San Diego where it was pronounced a huge success by the nearly 4000 people who attended. Don't miss this Triennial!

Plenary: Edward Allison Aquaculture In A Changing Climate

Dr. Edward H. Allison has a degree in Marine Biology and a PhD in Marine Resource Management, both from the University of Liverpool, U.K. He has 20 years' experience in the field of fisheries and aquaculture management and development in sub-Saharan Africa, south and south-east Asia, Oceania, Latin America and the UK.

He has held research and advisory positions with the UK Department for International Development in Malawi,

with the UN Food and Agriculture Organisation in West and Central Africa, the School of International Development at the University of East Anglia, U.K., and was recently Director of the Policy, Economics and Social Science research programme at the WorldFish Center, Penang, Malaysia. His research bridges economic and social development concerns with those of fisheries, aquaculture and environmental governance.

His current work focuses on the contribution of fisheries and aquaculture to food and nutrition security and coastal and riparian people's vulnerability and adaptation to climate change. In September 2013 he will take up a Professorship in the School of Marine and Environmental Affairs at the University of Washington in Seattle.
